Showcase Participants
1 / City Intercom:
Anne Haaning
Inger Margrethe Larsen
Morten Emil Engel

2 / The Parallel City:
Philip Dam Roadley-Battin
JA-JA Architects
USUS / Isabel Ahm

3 / Green Space:
B14
Christina Liljenberg Halstrøm
Sandra Jouatte

4 / Copenhagen Harbour Bikes:
Duldags / Troels Øder Hansen
Shiftcontrol
Sandra Johansson

5 / Mekano City:
Mia Scheel
Ronald Laurits Jensen
Typografisk Afdeling

Link UP Showcase 2009

Greener, Bigger, Better

Uncover a parallel city, talk on the stairs and chill out in mobile pocket parks during Copenhagen Design Week when fifteen creative professionals from the Link UP network conquers the streets of central Copenhagen for ten days showing ideas and visions for a sustainable Copenhagen.

Link UP Showcase 2009 stages an itinerary through central Copenhagen divided into five legs each telling the story of Copenhagen as a green, clean, easy and dense city by emphasizing and manipulating elements taken for granted knowledge that makes (or does not make) Copenhagen a sustainable city.

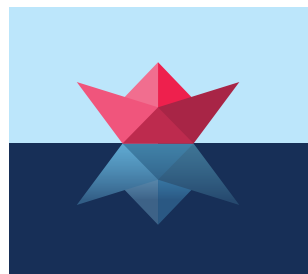

It's the 3rd run of the Showcase, created by Link UP, this time in cooperation with Copenhagen X and Sustainable Cities™ and with support from Copenhagen Design Week and Indre By Lokaludvalg.

The exhibited projects are all temporary and site specific and created especially for Copenhagen Design Week. They can be experienced as separate points of impact around the city or as an alternative route through the city following the map in Copenhagen Design Week's catalogue. During the Design Week, Link UP and Copenhagen X will host guided tours with experts, partners and exhibitors who will reflect on the projects and sustainability by design in general.

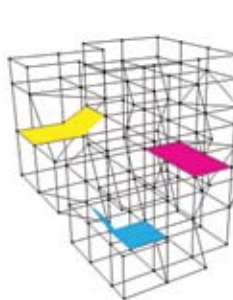

The 5 teams will open their exhibitions on August 27th between 18-20 and rounding up at the opening party at 'Huset ved Kongens Have', Gothersgade 89 at 22.00:

There will also be an overview of the project on display as part of the Showhow exhibition at Hal D, Strandgade 95.
